

WC DOCKET NO. 03-259 and Comp. Po. File No. 667

If Touch America discontinues Frame and ATM services on January 31, 2004, this could cause significant harm to our business due to the dependence on these services. Without these services in place, we would be unable to conduct business at our remote locations which would potentially cause loss of revenue in lost sales.

Due to the complexity we feel the timeline allowed for the migration to another carrier is not adequate. Therefore we ask that the cut off date of service to be extended from 1/31/2004 out to 3/1/2004 to allow enough time for a successfully migration. This would be more appropriate to acquire reasonable substitute service.

Thank You.
